

IT'S TIME TO FLY

"It's Time To Fly" is an inspirational ballad that can be dedicated to anyone in their time of need. Songs like this have great universal appeal because they are uplifting and bring hope to people's lives. This can be sung by anyone, and it can be a 'Josh Groban' type solo, or a big production number with an orchestra and choir. It's a very powerful song with a lot of potential.

"There's a dream in every one of us
That gives us hope and makes us whole
Like a river your dream must flow
So spread your wings and let it go
Every day of your life
There is hope if you try
Sing a song and don't forget to smile
Hold your head up and go in style"
