

THE BEST OF ME

INTRO - Em

C G D Em
I came by today to see you, but you were not alone
C G D Em
I called you up, you would not answer, I guess I should have known
D Em C D Em C D G
Turn off the light, drift away, tomorrow's another day
Bm Em Bm Em
I gave you everything and more, I opened each and every door
C G C G
I followed you through thick and thin, down that road and back again
D C D Em
But you are not what you appear to be, you got the best of me

Reachin' out, holding on, time keeps rollin' by
