

# LONELY WORLD

This soft rock ballad is about love, loneliness, isolation, yearning. It's part of the innocence we go through on love's journey when we're young. It is sung by a male artist. What a great experience, but so painful. But what would life be without the memories.

"I'm not the only one who's lonely, this is true  
But I'm the only one who's looking just for you  
I'm a lonely boy, in a lonely world  
Looking for a lonely girl"
