

RIDE ON COWBOY

“Ride On Cowboy” is a traditional country song. I can hear Willie Nelson singing this one. He may not be available, so why don’t you give it a try! It’s been almost 150 years since the cowboys began roaming the West. Lately, the glory has begun to fade. Saddle up boys. It’s time for one last ride.

“In the good old West, man’s best friend was his horse
There was nothing to plan, life followed its natural course
An old six gun and a cowboy hat
A pair of good boots, in the saddle you sat
Till the sun went down and you slept out under the stars
‘Ride On Cowboy’, ride on”
