

SHENANDOAH MOON

“Shenandoah Moon” is a song about growing up in Ohio and West Virginia. It fits nicely in the country-folk-bluegrass genres. A male or female lead singer, but a great group song. Our demo features Ms. PJ Tedrick of The Tiki Seekers. What a beautiful, smooth-flowing song with loads of potential. This is not only one of The Tiki Seekers best songs, it is also requested at every Tiki Seekers show.

“... To the warm West Virginia nights
far away from the city lights
though I love your shining passages
and pretty stars so bright
there’s a ‘Shenandoah Moon’ just out of sight
Take me back there on more time
Take me back there soon
Let me see your silver shining Shenandoah Moon”
