

THE HIGHER YOU CLIMB

Greed is not good! Set to a slow, heavy, rock beat, “The Higher You Climb” is the theme song of ‘the one-percent’. And the message comes through loud and clear. This is a great band song with a lot a energy, bass, and percussion.

“The Higher You Climb, the harder you fall
You’ve taken your share, but you can’t have it all
The Higher You Climb, the harder you claw
You’ve got more than you need, but you still want it all”
